#### Smoked Out.

At last Mayor B a) has been ! smoked out and stands before the prople of Bangor in his true character I has answered his purpose for a few years past to pose as a Republica ; because it best served his personal ends to be ideatified with that party So long as he could dictate its nomination in a general cavone packed for that purpose he pretended to be a most zerlous Republican and preached the doct inc. of majority rule on all occasion. But as subsequent evenus have demonstrated the Mayor o ly believes in the rule of the im jority when the inabelty is it recore with the Mayor When the reople manifest a disposition to not indicand atly of the Mayor a dictation as for instance in the nomination of his succe sor, le shows himself in his true colors, a wrecker, because the city party and ludeed every thing is made secondary to his personal Last fall when the R publish City

Through his nauece a minority call was issued signal by the terrefury of the committee the result being that two I opposentative thekets were placed in somit for Phen the question was centro the Court in order. would have been given the Lenefit of the question was sent to the Court in order hap the powers of the Chy Committee might be legally defined

time, of course there could be but one late of falls of the com littee had acted within its righ a in n thing the clarge in the caucus ayatem Mayor Beal, however, refused to recogrize the mandato of the law and I a himself and o her candidates petitioned upon the ballot thus not only becoming a bolter but demonstrating the dishesesty of his purpose in raising the question as to the committee a power. We now come to the Mayoralty caucus this year. The Republican City Committee met and by a majority vote decided to again employ the delegate system The decision was fairly made in the committre and was recognized by the members. Secretary Mason, who had accepted the Mayor's idea of the law last fall and refused to sign the call of the majority, this year attached his signature without question when the majority voted to continue the delegate system, so that the call stands today as the meanlmons action of the committee, the minority having accepted the decree of the majority as it was ruled by the Court they were bound to do. The opposition somes from one man and that man is Mayor Beal. He it is who has made all the trouble in the city in the interest of de ambition to rule or rule

There is one reason why the Mayor The Committee on Judiciary will give a positio hearing in the nows at the State House in August, WILDERSON, Fab. 17, 207, 48 for his part of the committee of t represent he delegate system and only ne.
